

TECH-SPRAY®

Liquibor

GUARANTEED ANALYSIS

Boron (B).....2.5%

Derived from: Boric Acid, Sodium Borate.

8.90 lbs/gal

F1132

TECH-SPRAY Liquibor provides essential plant nutrients in a water-soluble form for use as a nutritional spray. It is designed to be combined with TECH-FLO products, but may be applied alone.

WARNING: Causes eye and skin irritation

Wear protective clothing, gloves, eye and face protection. Do not eat, drink or smoke when using this product. Wash hands thoroughly after handling. Remove and wash contaminated clothing before reuse. Avoid breathing vapor, mist or dust from this product. Not for human or animal consumption.

If in eyes: Rinse thoroughly with water for several minutes. Continue rinsing and get medical attention if eye irritation persists. **If on skin:** Wash with plenty of soap and water. **If swallowed:** Rinse mouth and get medical attention if you feel unwell.

NOTICE: Do not store this product at temperatures below 40°F as precipitates may form that are difficult to dissolve. DO NOT expose to temperatures below 32°F.

KEEP OUT OF REACH OF CHILDREN

WARNING: This product contains Boron (B) and is to be used only where Boron is known to be beneficial and on the crops recommended on this label. Any other use may result in injury to crops.

GENERAL RECOMMENDATIONS

FOR USE AS A NUTRITIONAL SPRAY

Uniformly apply the suggested rates of TECH-SPRAY in the following amounts of water per acre.

	Dilution	Foliar Rate	Application Timing
Field, Row & Vegetable Crops	By air: 3-20 gal By ground: 5 gal min	1 pt - 2 qts	Apply every 2-4 weeks as needed, starting pre-bloom
Tree & Vine Crops	By air: 10 gal min By ground dilute: 100-500 gal By ground concentrate: 25-100 gal	1 pt - 4 qts	Apply every 2-4 weeks as needed, starting pre-bloom to post harvest
In oil sprays: use 1-4 pints per 100 gallons		Minimum dilution rate: 1 quart per 3 gallons.	

COMPATIBILITY: This product is compatible with most crop protection materials. A compatibility test is recommended when using new combinations. Do not mix with lime or TPTH.

SOIL APPLICATIONS: For all crops: 1-4 qts per acre as needed. Do not apply with phosphate or sulfate fertilizer products. Any previously applied phosphate or sulfate fertilizer should be thoroughly flushed from fertigation equipment prior to application of TECH-SPRAY. Apply TECH-SPRAY products slowly into fertigation equipment in the early part of the water application.
