## GENERAL RECOMMENDATIONS FOR USE AS A NUTRITIONAL SPRAY

Uniformly apply the suggested rates of NERI in the following amounts of water per acre.

	Dilution	Foliar Rate	Application Timing
Field, Row & Vegetable Crops	By air: 3-20 gal By ground: 5 gal min	1 pt - 2 qts	Apply every 1-4 weeks as needed, starting pre-bloom
Tree & Vine Crops	By air: 10 gal min By ground dilute: 100-500 gal By ground concentrate: 25-100 gal	1 pt - 4 qts	Apply every 1-4 weeks as needed, starting pre-bloom to post harvest
In oil sprays: use 1-4 pints per 100 gallons		Minimum dilution rate: 1 quart per 3 gallons.	

**NOTE:** FOR TABLE GRAPES: do not apply within 6-8 weeks of harvest.

**COMPATIBILITY:** This product is compatible with most crop protection materials. A compatibility test is recommended when using new combinations.

**SOIL APPLICATIONS:** For all crops: 1-8 qts per acre, apply to root zone as needed every 1-3 weeks. Do not apply with phosphate or sulfate fertilizer products. Any previously applied phosphate or sulfate fertilizer should be thoroughly flushed from fertigation equipment prior to application of NERI. Apply NERI products slowly into fertigation equipment in the early part of the water application.

Store in a cool, dry, well-ventilated area away from heat, combustible and in compatible materials. Dispose of unused contents, container, and other contaminated wastes in accordance with local, state, and federal law.

**NOTICE:** Information regarding the contents and levels of metals in this product is available on the Internet at <http://www.aapfco.org/metals.html>

### WARRANTY DISCLAIMER AND LIMITATION OF LIABILITY

Nutrient Technologies, Inc. ("NTI") warrants that this Product conforms to the specifications on this label. To the extent consistent with applicable law, NTI makes no other warranties and disclaims all other warranties, express or implied, including but not limited to warranties of merchantability and fitness for a particular purpose. No agent of NTI or any other person is authorized to make any representation or warranty beyond those contained herein. It is impossible to eliminate all risks associated with this Product. Plant injury, lack of performance, or other unintended consequences may result because of factors such as abnormal weather conditions, use of the Product other than in strict accordance with this label's instructions, presence of other materials, the manner of application or other factors, all of which are beyond the control of NTI or the seller. To the extent consistent with applicable law, all such risks shall be assumed by the Buyer.
